

Dear Piezosurgery® User,

A few weeks ago, I emailed you to invite you to participate in a new initiative aimed at connecting patients seeking better treatment options and clinicians using Piezosurgery® in their practice.

As a service to these patients, who have been contacting us more frequently, and an added benefit to our customers, we are introducing a patient portal on our website. In an environment similar to Google™ maps, patients can search for practices that use Piezosurgery® in their area. Practice name and contact information with links taking them directly to the practice website will be displayed. Additionally, for all featured practices, patients will be able to see what procedures are performed with the Piezosurgery® device. The patient portal will also feature educational patient information on common procedures presented in a patient friendly format. This content will address questions many have when considering surgical intervention. Additionally, we will outline the many benefits of choosing a provider with the skills, training and access to latest technology, resulting in the best patient outcomes.

We are pleased to invite you to be a featured practice on our patient portal. To have your practice featured, we will need to confirm the existing information on file to ensure your current information is posted correctly on the portal. Kindly confirm or update your contact information and list the procedures you currently perform with Piezosurgery®. We anticipate rolling out this new extension of our website by the end of the year and will notify you accordingly when it is live.

Should you have any questions or would like more information, please call (888) 877- 4396 to speak with a Clinical Consultant or respond via email at info@piezosurgery.us.

Thank you for choosing Piezosurgery® as your partner in providing advanced clinical solutions. We appreciate your business and will continue to seek out new and innovative ways to market both our brand and our customers to the patients who are looking for the best care.

Sincerely,

A handwritten signature in blue ink, appearing to read "Giuseppe Vercellotti", written in a cursive style.

Dr. Giuseppe Vercellotti

President & CEO
